## OPTIONAL ACCESSORIES

# iTALK BC9 Body Camera

## FEATURES AND HIGHLIGHTS

### 4G On-Site Real-time Video Streaming

The BC9 Body Camera can transmit the on-site real-time video back to the control center, to meet the demand of remote commanding, which could perform video monitoring, video call, live streaming, and video conference.

### NFC

The NFC function on the BC9 supports more applications in different industries by extending functions as guard patrol and time and attendance.

### Dual Rotatable Camera

The wide-angle and zoom lens\* of the BC9 can be rotated, which provides optimal angle of view and flexible wearing positions for users to make the video, images and video conference in various critical events.

### iTALK Call Options

The BC9 Body Camera features all call, group call, full-duplex call, conference call and dynamic grouping to meet the instant call demands in various fields.

### Secure Voice and Video

The BC9 Body Camera adapts the secure RTP protocol (SRTP) which is used for encryption and authentication of both voice and video. This is especially beneficial over Wi-Fi networks.

### BOX Dual Loudspeakers

With the professional design of dual loudspeakers, BC9 has a clearer and louder audio to make a good performance in the noise environment.
